Legend	2,001 VAULT	384 Pairs (11,520 VAULT)	None	11,520 VAULT	Yes

Unilevel Percentages

Direct

2nd Level

3rd - 5th Level

When you reach your pairing limit, unilevel commissions will stop.

VAULT Extraction Mechanics

Return Rate

Ranges from 1.2% to 2.5% daily or 120% to 250% for 100 days.

Earn More

When you hit your pairing limit, just upgrade to a higher level to add more daily extractions

Repeatable

You are allowed to **purchase your selected level multiple times**, increasing your daily extraction earnings.

Legend

At the highest level, you will no longer gain daily vault extraction, but unilevel and pairing remains.

How the Extractor Team Works

Purchase a Level

Start by selecting and purchasing a level of your choice. Your level purchase sets your **pairing limit**, which defines how many pairings you can earn before needing to upgrade.

Invite Your Downlines

Share your **referral link** or **ID** (available on your dashboard) to invite people to join your team. Each new member you recruit will become part of your **Extractor Team**.

Binary Structure

Your team is arranged in a **binary system**, meaning your downlines are placed into **two legs**—one on the **left** and one on the **right**.

Earning Pairing Bonuses

Each time a downline on your left side purchases a level, you earn 1 point on the left.

Each time a downline on your right side purchases a level, you earn 1 point on the right.

When you have **at least 1 point on both the left and right sides (a pairing)**, you earn a **30 VAULT Token pairing bonus**.

If you have 5 points on your left and 3 points on your right, you will earn 3 pairing bonuses (one for each matching left and right pair).

Maximizing Pairing Bonuses

The more active your downlines are on both sides, the more pairings and bonuses you can accumulate. However, the **pairing limit** based on your level will cap how many pairings you can earn. Once you reach your pairing limit, pairing bonuses will stop until you upgrade to a higher level to reset the limit.

! IMPORTANT !

When you reach your pairing limit, both **pairing bonuses and unilevel commissions** will **stop**. To continue earning, you must **upgrade to a higher level**, which will reset your pairing limit and volume, allowing you to keep earning from your team.
