WHITEPAPER

ABSTRACT

Vaultify Finance is a pioneering decentralized finance (DeFi) platform that empowers users to earn passive income through a structured token extraction system. By allowing users to purchase levels and extract VAULT tokens, our unique model incentivizes team-building and strategic engagement within the ecosystem. This whitepaper outlines the mechanics, features, and benefits of Vaultify Finance.

INTRODUCTION

In the evolving landscape of DeFi, Vaultify Finance introduces an innovative approach to token extraction, where users can earn rewards by purchasing levels and forming Extractor Teams. Our platform leverages the capabilities of the Polygon network to provide liquidity and facilitate seamless transactions.

WHAT IS VAULTIFY FINANCE?

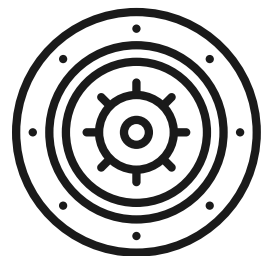

Vaultify Finance allows users to purchase levels, which determine their potential earnings through daily token extraction. Users can extract up to 2.5% daily for a maximum of 100 days based on their chosen level. The platform also promotes growth through Extractor Teams, enabling users to earn additional income by pairing team members.

VAULT TOKEN FEATURES

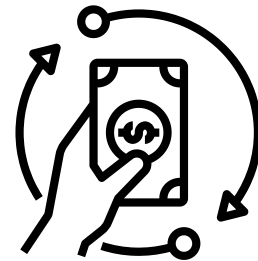

Daily VAULT Extraction

- Range: 1.2% to 2.5% daily, depending on the chosen level.
- Duration: Extractable over 100 days.

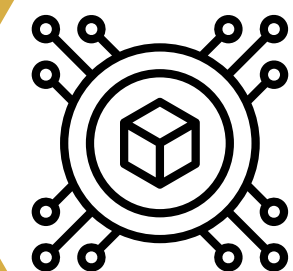

Liquidity Ready

- Platform: The VAULT token is listed on Polygon Uniswap, allowing for immediate claiming and swapping.

Token Supply

- Total Supply: 100 million VAULT tokens.
- Available for Extraction: 70 million VAULT tokens.
- Liquidity Allocation: 30 million VAULT tokens.

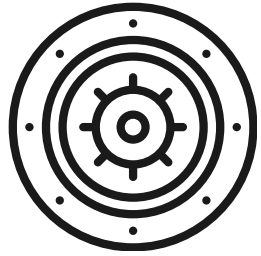

TOKENOMICS

The tokenomics of VAULT tokens are designed for long-term sustainability

- **Total Supply:** 100 million VAULT tokens.
- **Distribution:**
 - 70% (70 million VAULT): Extractable through level purchases.
 - 30% (30 million VAULT): Provided as liquidity on Polygon Uniswap.

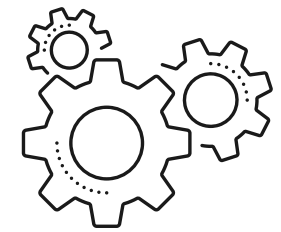

Daily Vault Extraction

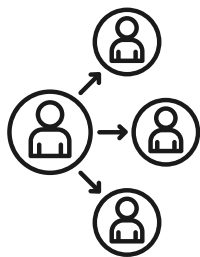

Extraction rate is determined by user-selected levels, providing a sustainable flow of tokens over time..

Sustainability Mechanism

As users reach their pairing limits, they must upgrade to higher levels, balancing token supply and demand.

Referral & Commission Structure

- Direct Referral Bonus: 10%
- Second-Level Commission: 3%
- Third to Fifth Level: 1%

Token Utility

- **Level Purchases:** VAULT tokens are required to purchase levels.
- **Liquidity & Trading:** Tokens can be traded on Polygon Uniswap, enhancing user flexibility.

HOW DOES THE EXTRACTOR TEAM WORK?

1

Purchase a Level:

Select and purchase a level to determine your pairing limit.

2

Invite Downlines:

Use your referral link to grow your team.

3

Earn Pairing Bonuses:

Points are earned through downline purchases, leading to bonus VAULT tokens.

4

Unilevel Commissions:

Earn commissions at various levels based on team structure.

5

Upgrade:

Continue earning by upgrading when limits are reached.

HOW DOES VAULT EXTRACTION WORK?

The extraction rate increases with the investment level. Each level specifies a daily extraction percentage, valid for 100 days. Users can repurchase levels to maximize extraction until they hit pairing limits.
